**Election 2008: Do We Really Elect Our President This Way?**

*Von Canon Hall, Bryan Center, West Campus*

The U.S. is unique among democracies in that it gives the public a substantial say in who the parties nominate for president. Why do we do it this way—from campaigning, winning in the primaries, and winning delegates to the conventions? How do the people choose, and how else could it be done? John Aldrich, Pfizer-Pratt Professor of Political Science at Duke, specializes in American politics and behavior, formal theory, and methodology. He will compare this year's Iowa campaign, not only with the other campaigns but also with competitive nominations and elections elsewhere, such as in China. He is the author of *Why Parties?: The Origin and Transformation of Political Parties in America* and a series of other books on elections, including *Change and Continuity in the 2004 and 2006 Elections*.

3:00 – 4:00 p.m.

**DukeEngage: Tackling Real-world Problems, Where They Happen**

*Von Canon Hall, Bryan Center, West Campus*

Eric Mlyn, director of DukeEngage, and a panel of students will discuss this new program that puts classroom knowledge to work in the field. DukeEngage provides full funding and faculty and administrative support to all undergraduates who want to stretch beyond the classroom by tackling societal issues at home and abroad, and, in turn, learning from those real-world experiences. Projects range from learning about African education challenges while helping a rural school to gaining insights into natural disasters while working with Gulf Coast flood victims. Mlyn is the former director of the Robertson Scholars Program, created in 2000 as a joint merit scholarship at Duke and the University of North Carolina at Chapel Hill.

3:00 – 4:30 p.m.

**PRISM Concert** *Baldwin Auditorium, East Campus*

Now in its fourth year, PRISM is expected to fill Baldwin Auditorium again. Come spend an hour listening to the 200 undergraduates who comprise the music department's seven ensembles. The program moves without applause from one ensemble to the next in a stream of music that fuses the playing and singing of all seven groups into a sound continuum. Following the concert, the Duke Department of Music invites you to join current students, some of the many Music

Department faculty members you may remember, and new faculty members at a reception in the Mary Duke Biddle Music Building.
